RESUME · GVAZAR

Shokhrukhkhon Eshonov

Artificial Intelligence Engineer · Full-Stack Developer

AI engineer building production systems end to end: from models and data pipelines to high-load Go / FastAPI backends, React interfaces and Linux server operations. Shipped multiple public platforms in Uzbekistan, including a services super-app with an AI assistant that performs 50+ actions in Uzbek and Russian.

Experience

- AI Engineer, AI Implementation Department** 2025 - present
Scientific-Technical Information Center, Agency for Innovative Development
 - Integrating AI solutions into national scientific and technical information systems.
 - Building search, analytics and data platforms for scientific resources (sdata.uz, ilmdata.uz).
- Full-Stack & AI Developer (projects)** 2021 - present
Independent / product work
 - Designed, built and deployed web platforms and mobile backends (Go, FastAPI, React, PostgreSQL).
 - Own infrastructure: multi-server deployment, Nginx, SSL, monitoring on Oracle Cloud.

Selected Projects

HubServis hubservis.uz
Uzbekistan services platform (iOS & Android): 28 service categories, job requests, marketplace, in-app chat/calls and an AI assistant executing 50+ actions in Uzbek and Russian.

AiRek airek.uz
Generative-AI service for professional advertising videos.

Izlanuvchi izlanuvchi.uz
Professional services platform for researchers.

SData sdata.uz
Open platform of scientific resources and datasets.

IlmData ilmdata.uz
Scientific data base and analytics system.

CESD cesd.uz
Platform for the Center for Effective Solutions Design.

Closed systems [NDA](#)
Several internal AI and information systems (details on request).

Education & Service

- B.Sc. Artificial Intelligence** 2021 - 2025
Tashkent University of Information Technologies
Machine learning, deep learning, computer vision, NLP.
- Military Service** 2019 - 2020
Armed Forces of the Republic of Uzbekistan
- Informatics (vocational diploma)** 2016 - 2019
Naryn College of Economics
